

Australian Philatelic Federation Visiting Speaker Program

The APF has a policy to encourage visiting speakers to ensure that members of clubs around Australia get to see the best available collections. The exact APF policy is as follows:

It is part of the APF policy to encourage Councils and Clubs to organise events where talks and displays can be given by notable philatelists. The APF will reimburse Councils for up to half the cost incurred under the following circumstances:

The visit involves interstate travel.

The visit is primarily for the purpose of giving a talk to collectors.

The Speaker is on the APF list of accredited speakers.

There are funds in the State Councils approved grants budget.

In addition to the above financial support, there are a number of exhibitors who are willing to travel intrastate to display their collections or to give a talk. While not directly supported by the APF with a financial contribution some State Councils may assist with expenses or in many cases the visiting speaker may just require a contribution towards some of their expenses.

Contact details for the individual speakers have been omitted for security reasons. To be put in touch with one of our speakers, the initial contact is with the John Sadler, the Philatelic Development Officer, by email at jpsadler@bigpond.com.au or by telephone on (02) 9529 7152. John will then have the speaker contact you for the final arrangements.

It is important to note that before an individual club engages the services of a speaker they should discuss any financial commitment with the intended speaker, and any special requirements of that speaker. The Club should then contact their State Council to confirm that money is available for a visiting speaker and what the local arrangements are for reimbursement. This may vary from State to State and should be confirmed prior to confirming the speaker to ensure the Club knows its full costs (if any) beforehand.

Exhibit	Brief Description	Size (pages)	Name	Willing to travel	Billet Required	State
TRADITIONAL PHILATELY						
Australia – KGV Definitives	A comprehensive display of KGV definitives including archival material	Up to 128	Arthur Gray	In State & interstate	Yes	NSW
